Heart with Cross section - URP

This exclusive Low poly, Heart with Cross section – URP pack can be used to fill up your fictional game environment. With 2k resolution, URP textures, you can now optimize your project as you want using multiple options provided in the package.

Textures are created to be realistic with URP workflow. The texture folder also contains four texture maps (Base map, Metallic map, Normal map, Occlusion map).

• Drag and Drop the prefabs from the prefabs folder to use them.
